

Homebrook Foundations Referral Pathway

1. Initial Enquiry

Local Authority, school, professional or parent/carer contacts Homebrook Woods to discuss the child's needs.

2. Referral Submitted

Completed Homebrook Foundations Referral Form received, together with any available supporting documentation.

3. Initial Review

The referral is reviewed to understand the child's strengths, needs, current circumstances and the most appropriate type of Foundations support.

4. Discussion & Planning

Where appropriate, we meet with the referrer and family to discuss the child's needs, answer questions and agree the most suitable package.

5. Individual Programme Agreed

A personalised Foundations Provision package is developed, including attendance, therapeutic approaches, outcomes and review arrangements.

6. Placement Begins

The child begins their personalised programme, with regular communication and reviews to monitor progress and plan next steps.

Every Foundations placement is individually planned around the child's strengths, communication profile and identified needs, ensuring support is tailored to achieve meaningful outcomes.
