

Our Curriculum

A therapeutic, developmental curriculum that helps every child flourish.

At Homebrook Woods, our curriculum is built around each child's strengths, interests and needs.

We follow a developmental approach, not age-related expectations, so learning is meaningful, relevant and helps every child make progress.

Our Curriculum is Designed to:

Put the child at the centre

Build communication, independence and life skills

Support emotional wellbeing and relationships

Develop curiosity, confidence and resilience

Work in partnership with families and professionals

How We Teach

We use a developmental approach (Levels A–F) to ensure learning is matched to each child's stage of development, not their age.

- ✓ Learning is practical, engaging and meaningful
- ✓ Communication is at the heart of everything we do
- ✓ Therapeutic practice is woven throughout the school day
- ✓ Staff adapt, scaffold and personalise learning to help every child succeed
- ✓ Progress is celebrated in every small step

What We Teach

	English	Communication, phonics, reading engagement, writing
	Mathematics	Number, problem solving, practical maths and reasoning
	Science	Exploring the world and developing understanding
	Technology (IT)	Digital skills for learning and life
	Humanities	Understanding people, places, communities and the past
	Physical Education	Movement, coordination, health and wellbeing
	Aesthetic & Creative	Art, music, dance, drama and creative expression
	PSHE	Personal, social, health and emotional development

Our Curriculum Themes

Our curriculum is organised around six key themes, revisited each year to build knowledge, skills and independence.

Myself & My World

My Community

The Natural World

People & Relationships

Independence & Life Skills

Preparing for the Future

Learning That Lasts

Through repetition, meaningful experiences and real-life contexts, we help children build the knowledge, skills and confidence they need for today – and for their future.

♥ We don't expect children to fit our curriculum – we adapt learning around each child.

Every child. Every step. Every success.
